

amici::SteadystateProblem  
::checkConvergence

```
graph LR; A["amici::SteadystateProblem  
::checkConvergence"] --> B["fsxdot"]
```

The diagram consists of two rectangular boxes connected by a horizontal arrow. The left box is white with a black border and contains the text 'amici::SteadystateProblem' on the top line and '::checkConvergence' on the bottom line. A dark blue arrow points from the right side of this box to the left side of a second box. The second box is gray with a black border and contains the text 'fsxdot'.
