

AmiException

```
graph LR; A[AmiException] --> B[storeBacktrace]
```

A diagram showing a call from the `AmiException` class to the `storeBacktrace` method. A gray box labeled `AmiException` is on the left, and a white box labeled `storeBacktrace` is on the right. A blue arrow points from the right side of the `AmiException` box to the left side of the `storeBacktrace` box.

storeBacktrace
