

makeEvents

```
graph LR; A[makeEvents] --> B[amievent::setHflag]
```

A diagram showing a call from the `makeEvents` function to the `amievent::setHflag` function. The `makeEvents` box is shaded gray, and the `amievent::setHflag` box is white. A blue arrow points from the right side of the `makeEvents` box to the left side of the `amievent::setHflag` box.

amievent::setHflag
