

getSensitivityFlag

```
graph LR; A[getSensitivityFlag] --> B[amici::Solver::getSensitivityOrder];
```

A diagram showing a mapping from a function name to its full namespace. On the left, a gray rectangular box contains the text 'getSensitivityFlag'. A blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text 'amici::Solver::getSensitivityOrder'.

amici::Solver::getSensitivity
Order
