

amici::ForwardProblem  
::getSimulationStateTimepoint

```
graph LR; A["amici::ForwardProblem  
::getSimulationStateTimepoint"] --> B["getTimepoint"]
```

The diagram illustrates a function call. On the left, a white rectangular box with a black border contains the text 'amici::ForwardProblem' on the first line and '::getSimulationStateTimepoint' on the second line. A dark blue arrow points from the right side of this box to a second box on the right. This second box is gray with a black border and contains the text 'getTimepoint'.
