

ContextManager

```
classDiagram
    class ContextManager
    class FinalStateStorer
    FinalStateStorer --|> ContextManager
```

A UML class diagram showing an inheritance relationship. The 'ContextManager' class is at the top, represented by a white rectangle with a black border. The 'FinalStateStorer' class is at the bottom, represented by a gray rectangle with a black border. A blue arrow points from the bottom of 'FinalStateStorer' to the bottom of 'ContextManager', indicating that 'FinalStateStorer' inherits from 'ContextManager'.

FinalStateStorer
