

fJSparseB

```
graph LR; A[fJSparseB] --> B[amici::AmiVector::getNVector]
```

A diagram showing a mapping from a function to a specific implementation. On the left, a gray rectangular box contains the text 'fJSparseB'. A dark blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text 'amici::AmiVector::getNVector'.

amici::AmiVector::getNVector
